PROFESSIONAL SUMMARY

Results-driven Computer Science and Engineering student, also pursuing a BS in Data Science and Applications at IIT Madras, with hands-on experience designing, building, and maintaining responsive, production-ready websites. Currently a Web Development Intern at ATC Travelzone, where I developed and manage a new customer-facing website along with its admin tooling and Cloudflare deployments. Proficient in Java, Python, JavaScript, and SQL, with a practical, build-first approach to UI/UX and full-stack fundamentals.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Front-End: HTML5, CSS3, React, Responsive Web Design, DOM Manipulation, localStorage

Databases & Cloud: MySQL, Cloudflare Workers

Tools & Platforms: Git, GitHub, VS Code, Node.js, Vite, Wrangler, Figma

Core Knowledge: Object-Oriented Programming, DBMS, Data Structures, Debugging, Problem Solving, UI/UX Design

INTERNSHIP EXPERIENCE

Web Development Intern — ATC Travelzone, Chennai **Jun 2026 – Present**

HTML, CSS, JavaScript, React, GitHub, Cloudflare

Designed and built a new company website from the ground up, covering travel packages, destinations, activities, offers, reviews, and booking flows, and continue to manage and maintain it.

Enhanced admin panel capabilities, including image and video uploads, live previews, status management, category routing, and search.

Resolved front-end and data issues and deployed ongoing updates and new features through GitHub and Cloudflare, keeping the live site stable and up to date.

SELECTED PROJECTS

Waste Collection Worker Attendance & Route Register — Smart India Hackathon **2026**

HTML, CSS, JavaScript, Cloudflare Workers, Service Worker

Developed a dashboard for attendance records, route tracking, complaint management, and detailed record views to streamline waste collection operations.

Implemented offline support and migrated the application backend to Cloudflare Workers, including Wrangler configuration and database migrations.

Mass Blood Bank Website — Personal Project **2026**

HTML, CSS, JavaScript, localStorage

Built a responsive, multi-page website featuring hospital search and filtering, form validation, dropdown interactions, and persistent browser data.

College Bus Tracking Interface — Personal Project **2026**

HTML, CSS, JavaScript, React

Developed a responsive interface displaying bus routes, live status, estimated arrival times, and map-oriented details.

Personal Portfolio Website — Personal Project **2026**

HTML, CSS, JavaScript, Cloudflare Pages

Designed and deployed a portfolio website showcasing projects, skills, certifications, and achievements, with direct GitHub and LinkedIn links.

EDUCATION

B.E. Computer Science and Engineering — Prince Dr. K. Vasudevan College of Engineering **2025 – Present**

CGPA: 8.64 (Currently Pursuing)

BS in Data Science and Applications — Indian Institute of Technology Madras **Currently Pursuing**

Class XII — Dr. Gurusamy Mudaliar T.T.V. Higher Secondary School **2024 – 2025**

84% | Third Rank in Class XII

Class X — Dr. Gurusamy Mudaliar T.T.V. Higher Secondary School **2022 – 2023**

80%

CERTIFICATIONS

Anthropic Developer Certifications: AI Fluency, Claude API, Claude Code 101, Amazon Bedrock, Google Vertex AI, Agent Skills, MCP Fundamentals, Subagents

Web Development: Scaler Topics – JavaScript Fundamentals; freeCodeCamp – Responsive Web Design (V8)

Java: Infosys – Fundamentals of Java; Scaler Topics – Java Fundamentals

Python: Infosys – Python Fundamentals

Object-Oriented Programming: NPTEL – Fundamentals of OOP, Silver and Elite (78%)

UI/UX & Cloud: Microsoft – Azure Storage Security Applied Skills; Accenture – Digital Skills: User Experience

Additional: LPB02 – Automation with Arduino; B10X – AI Tools and Workshop

ACHIEVEMENTS

Top 50 at college level, Smart India Hackathon

Subject Topper in Mathematics, Physics, Chemistry, and Tamil

LANGUAGES

Tamil: Native

English: Professional Working Proficiency

Hindi: Conversational

OTHER PROJECTS

Web Development: Project Showcase (WIE), Task Management App, Stopwatch, Chill & Out Online Food Ordering, MK Institute of Technology Website, and JavaScript/CSS/HTML practice projects.

Java (OOP & Console): Employee Role Display, Vehicle Evaluation, Student-Teacher Management, Doctor-Patient Management, Library Management, Bank Account Management, Inventory Management, Payroll Management, and more.

Java Swing: Bank Management, Food Delivery (Strategy Pattern), Vehicle Rental (Factory Pattern), Timed Quiz Application.

Python: Student Record Management (CSV), Notes Saver, Library Management, ATM System, MCQ Quiz Application, and more.
